Ananthapuram, Andhra Pradesh

OBJECTIVE

To obtain a challenging position to work in a Dynamic industrial environment to upgrade my skills and knowledge and keep adding value to the organization I represent.

EDUCATION

Bachelor of Technologies Computer science Engineering; CGPA: 7.93

2021 – Present

Rajiv Gandhi University of Knowledge and Technologies

Nuzvid, Andhra Pradesh

Pre University Course(PUC) | MPC; CGPA: 9.0

2019 – 2021

Rajiv Gandhi University of Knowledge and Technologies

Nuzvid, Andhra Pradesh

Secondary Education(SSC); CGPA: 10.0

2018 – 2019

Municipal Girls High School

Dharmavaram, Andhra Pradesh

PROJECTS

Disease prediction and Consultation | Python,HTML

Feb 2024 – Jul 2024

Frameworks: Bootstrap and CSS.

- This project aims to develop a web-based application for disease prediction and consultation utilizing machine learning techniques. The platform allows users to input their symptoms through an intuitive interface built using HTML, CSS, Bootstrap, and JavaScript. The backend of the applications is Powered by Python, incorporating frameworks like Django to handle data processing and interactions with the machine learning model. The core functionality of the application involves disease prediction based on user-entered symptoms. This platform offers features to suggest recommended doctors specializing in the predicted disease.

Sticky Notes Web Application | HTML

May 2024 – June 2023

Technology: React Js

- This project involves the development of a web application similar to Evernote using React for the frontend and Firebase for the backend. The application will support secure user authentication, note creation and management, and real-time updates. The project will be structured into several phases, including planning, design, development, testing, and deployment. Each phase will involve specific tasks and deliverables, ensuring a systematic approach to the development process.

SKILL SUMMARY

Programming Languages: Python.

Web Languages: HTML, CSS.

Databases: SQL.

Other Courses: Data Structures and Algorithms.

Tools and Software: Visual Studio Code, MS Office, pycharm.

Languages: Telugu and English.
